# Read to Succeed!

As a parent, you are your child's first teacher. You can encourage their curiosity and build their communication skills through one of the most fundamental activities: **READING**. Booksters Ink™ was developed to give you and your child a fun and simple way to encourage reading and creativity.

Good reading habits promote the development of listening, speaking,

and writing skills. Studies have shown that language skills -- and even intelligence -- can depend on a child's daily exposure to a large vocabulary. Reading to your child is a great way to boost the number of words he/she hears plus it helps foster a love of literature and learning that will last a lifetime.

## The Program

Booksters Ink™ is created especially for young children ages 2-4 years and their parents. Each 10-week session focuses on a theme and combines reading with art, creative movement, music, and craft activities. Following a story, the children create puppets, masks, murals, bookmarks

or other fun projects to take home. Various materials such as big books, picture books, puppets and flannel board stories are used to engage the children.

## Class Schedules and Location

Booksters Ink™ is offered four times a year. Sessions run for 10 weeks, with the exception of summer, which runs for 8 weeks. Special holiday classes are offered throughout the month of December. Classes are 45 minutes in length and run in the mornings, afternoons, and Saturdays. Attached is a registration form for the upcoming session or visit our website for additional class offerings. All classes meet at 854 Route 6 in Mahopac, second floor above Kids Country.

## About Us

Booksters Ink™ was founded by Janine Storen and Michelle O'Donnell, two mothers of young children with the desire to share their love of reading and the power of the written word with other young children and their parents. The goal was simple: Encourage a love of reading in youngsters by engaging them in hands-on, stimulating activities. This would in turn, give the children a head start on the road to lifelong learning while inspiring creative thinking.

Janine is a certified early childhood reading specialist with over 7 years teaching experience. Michelle is an education consultant, specializing in educational communication and has developed numerous educational programs for teachers and children in grades K-12.
